Subject: Electronics Recycling & Wants - Decommission Old Computer and Electrical Goods

Our E-cycle programme provides a depth consideration in the life cycle of I.T. hardware from crib to grave. It focuses on the placing of electronics products into good used. Why not put all discarded electrical computer peripherals altogether?

Good Help In What You Can DO.

- Untangle all cords and cables. Coil them up with a rubber band or twist tie.
- Attach power adapters (AC adaptors, transformers) to their associated equipment (such as powered switches, hubs or external modems) as best you can;
- Pack it inside a recycling bag or tape in a box.
- Keep a serial listing of items description for your record.
- And, email us if possible. Or, follow up by a call for direct appointment.

COLLECT MAINLY MOBILE COMPUTERS (PC/MAC)
